SOME OF OUR PROUDEST WORK

U.S. ARMY

We provided data integration leadership for the Army's Integrated Personnel and Pay System (IPPS-A) as well as played a significant role in the design, build, test, and implementation of this modernization effort to provide the US Army with online integrated personnel and pay capabilities in a single system for all Army Components.

We played an integral role in the largest implementation of an HR system in the world.

U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES

We provide Operations Maintenance & Enhancements support for the PeopleSoft-based HHS-wide EHRP personnel system and its interfaces. EHRP is critical to the Department's ability to deliver bi-weekly payroll, execute annual cycles, and support audits.

This contract represents nine years of continued support!
