- FDIC ITAS II (CORHQ-13-G-0106)
- HHS BPA (HHSP2332013000007WI)

Macro Solutions helps agencies **transition** from waterfall and other traditional project delivery models to an **Agile** approach. Our teams know agile because we are agile and we have proved our success with it.

Macro Solutions **mentors** teams and Scrum masters on how to be agile and what the true **atmosphere** of **Agile** is. We help teams break off the traditional narrow boxes to achieve a better environment and team.

Macro Solutions supports the government enterprise with **Federal Financials** and **Federal HR/Payroll** Systems, delivering business value rooted in experienced **Agile** teams.

All of our services are carefully tailored to bring short- and long-term client goals into perfect alignment, with intimate involvement from our senior leadership team at every stage of the project—*a guarantee we call Macro Assurance.*

At our core, we're a relationship company.

ABOUT US

We work closely with our clients and business partners to ensure strong and trusted relationships in all aspects of our business. Our policies and procedures are mature and robust—commensurate with our status as a seasoned business and IT consultancy—yet as a small business, we remain agile and responsive to our clients' evolving needs.

SOME OF OUR PROUDEST WORK

U.S FEDERAL FINANCIAL REGULATION AGENCY

We provided agile transitions for services delivery, mentoring across the agency and agile delivery for four different contract/headquarters. With three contracts on software delivery, two operations and maintenance and one service delivery, we are helping agencies do more with less.

We've grown our delivery from one task order to four task orders!

U.S. ARMY

The Army Integrated Personnel and Pay System embarked on Agile methodology to increase speed of delivery and integrate stakeholder feedback in their processes. Through Agile methodology they were divided into 12 Scrum teams of approximately 11 members each. This Agile adoption is unique due to its size and complexity, and allows for full integration of teams to work in parallel with functional team members and developers.

This unique Agile implementation helped our team adapt to the processes based on lessons learned!
