Labor Category Position Descriptions

Senior Manager 2

Major Functions: Senior Managers have taken on increasing responsibility in the design, implementation, and management of projects. They interface with the client on project specific issues, direct the completion of projects within estimated time frames and budget constraints, coordinate project specific parties, and review work products for completeness and adherence to applicable regulations and customer requirements.

Qualifications: An undergraduate degree or equivalent experience and over eight years' progressive experience in leading projects, demonstrated ability to provide guidance and direction for specific projects or sub-tasks, and capability to manage multi-task projects of high complexity for clients.

Senior Manager 1:

Major Functions: Senior Managers have taken on increasing responsibility in the design, implementation, and management of projects. They interface with the client on project specific issues, direct the completion of projects within estimated time frames and budget constraints, coordinate project specific parties, and review work products for completeness and adherence to applicable regulations and customer requirements.

Qualifications: An undergraduate degree or equivalent experience and over seven years' progressive experience in leading projects, demonstrated ability to provide guidance and direction for specific projects or sub-tasks, and capability to manage multi-task projects of high complexity for clients.

Manager 3:

Major Functions: The Manager interfaces with the client on a day-to-day basis, directs the completion of project specific tasks within estimated time frames and budget constraints, manages the day-to-day activities of the project team, and reviews work products for quality, completeness, and adherence to applicable regulations and customer requirements. This position ensures the project team's conformance with work standards, and coordinates work effort with involved parties to ensure problem resolution and client satisfaction. The Manager also delivers presentations and leads client meetings.

Qualifications: Specialized knowledge and expertise and/or an advanced degree, four or more years of progressively responsible experience in leading engagements, demonstrated ability to manage a project and to provide guidance and direction for specific projects or sub-tasks, and increasing responsibility in design, implementation, and management of projects.

Manager 1:

Major Functions: The Manager interfaces with the client on a day-to-day basis, directs the completion of project specific tasks within estimated time frames and budget constraints, manages the day-to-day activities of the project team, and reviews work products for quality, completeness, and adherence to applicable regulations and customer requirements. This position ensures the project team's conformance with work standards, and coordinates work effort with involved parties to ensure problem resolution and client satisfaction. The Manager also delivers presentations and leads client meetings.

Qualifications: Specialized knowledge and expertise and/or an advanced degree, two or more years of progressively responsible experience in leading engagements, demonstrated ability to manage a project and to provide guidance and direction for specific projects or sub-tasks, and increasing responsibility in design, implementation, and management of projects.

Senior Associate 3:

Major Functions: The Senior Associate provides technical knowledge in their area of expertise, works individually and on teams to support the completion of project specific tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, the Senior Associate supports the development of solutions that address organization challenges, support project objectives often by leading assigned engagement tasks to completion within scope and budget constraints, while ensuring deliverable requirements are met.

Qualifications: Bachelor's Degree (BS/BA) or equivalent experience in business, technical or related field and at least three years of progressively responsible experience in consulting and/or directly relevant industry experience in all aspects of project or task management. Minimum of three years of experience acting in a technical or functional lead capacity. Proficient in the use of firm tools to better support the overall program objectives and goals. Other experience includes demonstrated leadership skills and demonstrated ability to identify and define business and technical needs. An advanced degree or professional certification in a related business field may be substituted for one year of experience.

Senior Associate 1:

Major Functions: The Senior Associate provides technical knowledge in their area of expertise, works individually and on teams to support the completion of project specific tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Associates support the development of solutions that address organizational challenges, support project objectives often by leading assigned engagement tasks to completion within scope and budget constraints, while ensuring deliverable requirements are met.

Qualifications: Bachelor's Degree (BS/BA) or equivalent experience in business, technical or related field and at least one year of progressively responsible experience in consulting and/or directly relevant industry experience in all aspects of project or task management. Proficient in the use of firm tools to better support the overall program objectives and goals. Other experience includes demonstrated leadership skills and demonstrated ability to identify and define business and technical needs. An advanced degree or certification in a related business field may be substituted for one year of experience.

Associate 3:

Major Functions: The Associate provides a variety of project support involving finance, business processes, and technology from a risk services and management consulting standpoint. Each Associate will provide support to projects ranging from process improvement and strategic alignment to technology security. The Associate will work closely with staff, managers, and partners on all phases of project planning, engagement management, and wrap up.

Qualifications: Bachelor's Degree (BS/BA) or equivalent experience in business, technical or related field and three years or more of progressively responsible experience in consulting and/or directly relevant industry experience in support of projects or tasks. An advanced degree or certification in a related business field may be substituted for one year of experience.

Associate 1:

Major Functions: The Associate provides a variety of project support involving finance, business processes, and technology from a risk services and management consulting standpoint. Each associate will be exposed to projects ranging from process improvement and strategic alignment to technology security. The Associate will work closely with staff, managers, and partners on all phases of project planning, engagement management, and wrap up.

Qualifications: Bachelor's Degree (BS/BA) or equivalent experience in business, technical or related field and up to one years of progressively responsible experience in consulting and/or directly relevant industry experience in support of projects or tasks. An advanced degree or certification in a related business field may be substituted for one year of experience.

Senior Consultant 3:

Major Functions: Senior Consultants 3 provide technical knowledge in their area of expertise, work individually and on teams to support the completion of project specific tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Consultants apply their specific expertise to the practical issues they identify or those presented by the client. They also help to formulate solutions, prepare reports, studies, and documentation, and support presentations and client meetings.

Qualifications: An undergraduate degree or equivalent experience, three or more years of progressively responsible experience in performing and participating in engagements, specific experience in one or more key project areas, demonstrated ability to provide guidance and direction for specific projects or sub-tasks, and increasing responsibility in design, implementation, and management of projects.

Senior Consultant 2:

Major Functions: Senior Consultants 2 provide technical knowledge in their area of expertise, work individually and on teams to support the completion of project specific tasks within estimated time frames and budget constraints and interface with the client on a day-to-day basis. In addition, Senior Consultants apply their specific expertise to the practical issues they identify or those presented by the client. They also help to formulate solutions, prepare reports, studies, and documentation, and support presentations and client meetings.

Qualifications: An undergraduate degree or equivalent experience, two or more years of progressively responsible experience in performing and participating in engagements, specific experience in one or more key project areas, demonstrated ability to provide guidance and direction for specific projects or sub-tasks, and increasing responsibility in design, implementation, and management of projects.

Service Contract Act:

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract." per the Multiple Award Schedule Solicitation.
