

## CLOUD PLATFORM

Leveraging cloud services  
to deliver customer value

Culture support from the top along with new technology insertion drives adoption and energizes the organization

Establish ROI on modernization, shorter budget cycles to support experimentation, and focus on successes

Tailoring the playbook according to corporate environment and budget management plan with focus on small, quicker changes, to reduce risk

## ABOUT

Macro Solutions is a woman-owned information technology and management consulting firm that helps companies and government organizations select, implement, modernize, integrate and maintain critical end-to-end business solutions.

## CLIENT WINS

### BANKING REGULATORY & INSURANCE AGENCY

Macro Solutions is modernizing a number of public facing web applications and delivering cloud-native, secure applications using open source software and Agile and DevOps methods. Our open data strategy exposes multiple data sources to various data consumers in raw data files and an Application Programming Interface (API), so that public users can analyze bank data. We delivered the first Minimum Viable Product (MVP) production release within three months of award.

### HEALTH AND HUMAN SERVICES

HHS asked Macro Solutions to create a cloud-based solution incorporating a standardized Application Programming Interface (API) that would facilitate delivery of current and future interface requirements. Macro Solutions designed and constructed a secure gateway-based solution leveraging the service components within Microsoft Azure, incorporating the automated business logic for sequencing operations, and fortifying the solution in compliance with HHS and Federal Government security requirements.
